English

The image shows a complex grid-based puzzle interface. The main area is a grid of colored cells (red, blue, green, yellow, orange, purple, black, white) forming a large abstract shape. The grid is overlaid with a pattern of numbers (1-13) and symbols (circles, squares). At the bottom, there is a control panel with buttons for numbers 1-13, each with a corresponding colored square and a count. The counts are: 1: 352, 2: 103, 3: 160, 4: 41, 5: 112, 6: 114, 7: 60, 8: 98, 9: 26, 10: 4, 11: 11, 12: 12, 13: 13. There are also buttons for a cross, a left arrow, and a right arrow.

It's ok.

Lot of images are really small so it's disappointing

I mean people who will buy this are probably people who finished the game so make harder more challenging maps that'd be cool not 50-50 and less maps.

I don't like finishing maps in 5 minutes i like to take my time and do cool projects. Just as fun as the free content. More so if you're a fan of oldschool RPGs.. Bought the DLC the second it became available. Haven't even tried it but I'm sure it's going to be great. :). I was first to get this, I have no lifed this game for a while and felt like supporting devs. It's cheap for the ammount of content you get! Highly Reccomend \*If you have no life\*! XD. Can't beat the price point and i'm enjoying the puzzles. Great way to support the dev and hope for more content.

Great! And who can argue with the price? A dozen or so new pictures, from small to large. I like this business model and will be supporting it.. These will be great for something new to do. I was hoping for more large size (400 px or larger) images though. Hopefully in the future?. glad to support the devs. can you make it compatible with macVios please. i want to play it more.. If you like the base game you should buy this DLC. It is very cheap and it adds many hours of fun to the game.. Recommended - adds another 20 pics to work on. If you like the pics with the base game, you will like these too.

Would be nice if there were a few more bigger images but it does give a decent range of sizes.. second to get it. really fun pictures to draw and for 1\$ you get much time well spent
